

A young pine tree with vibrant green needles stands in the center of the frame. The ground is covered in a thick layer of light blue-grey moss and scattered brown pine needles. The background is a soft-focus forest floor with more moss and pine needles. The lighting is warm and natural, suggesting a sunny day in a forest.

It's in our nature

NORDICPAPER)))

Air. Forest. River.

It's in our nature

Living and working in Canada and Scandinavia, we are surrounded by nature. The vast forests provide the raw materials for the premium Natural Greaseproof and Kraft paper we produce in our five mills – in Bäckhammar, Åmotfors, Säffle, Greåker and Québec– and supply for our customers in more than 70 countries all around the globe.

The nature is a vital factor in the premium quality of our paper: the short summers and cold winters mean our trees grow more slowly, creating stronger fibres and enabling us to make stronger paper. Strict environmental standards – and our determination to exceed them – ensure our customers enjoy a renewable resource with a positive environmental impact.

With a global sales network, we work closely with our customers to ensure they get the paper that meets their specific needs. From preparing food and baking cakes and pastries, to packaging and storing food safely and hygienically, to the manufacture of steel, laminates, furniture, electrical cables and even matchsticks, our paper is a part of life for people all around the world.

We've been producing paper for more than 150 years. We are good at it, and we are proud of what we do. It's in our nature.

Close to you

Our customers use Nordic Paper to make life simpler for you and for millions of other people and businesses around the world.

This is Nordic Paper

We have been producing paper since the late 19th century. Our expert knowledge and experience has been passed down through the generations, and today we supply customers in more than 70 countries. With our five mills – we produce top-quality paper while meeting and exceeding strict environmental standards. We ensure our customers enjoy a renewable resource with a positive environmental impact.

When can I expect delivery?
What grammages can you provide?
Are you food certified for my market?

As a global paper partner, we work closely with our customers to make sure they get what they want, when they want it. And our worldwide sales network is always available to help our customers source exactly the paper they need. From baking paper for kitchens in Japan, to steel mills in Sweden, poultry farms in the Americas and fine cafes in London – we ensure we provide the best paper for the job. And you can count on our reliable delivery, wherever you are in the world. We make sure you get what you have ordered, on time, as agreed.

Part of your life

Our paper is an important part of your life, even if you can't see it:

- The perfect baking paper, for both professionals and those baking at home. Our wide range ensures the right paper for your needs.
- The best way of storing, transporting and packaging a wide range of staple foods such as sugar, flour, rice and potatoes.
- Attractive packaging for fruit and vegetables, fast foods, sweets, bread, dairy, delicacies and fine baked goods.
- Used in top commercial and household kitchens for better, more efficient food preparation.
- Biodegradable disposal of household and commercial kitchen waste.
- Exclusive printed baking cups, coloured, decorative cups and plain white muffin cups – all made of our paper.
- Vital component in manufacturing laminates and plywood for housing and furniture construction.
- Reliable, flexible packaging, storage and transport solutions for a range of chemical and industrial materials.
- Used for the manufacture of carpets and even matchsticks.
- Ensures a quality finish in stainless steel production.
- Central role in evaporative climate-control systems.
- Specially developed masking paper for the automotive industry.
- Essential insulation in high-tech electrical transformers.

Kraft paper

Our two Kraft paper mills, at Bäckhammar and Åmotfors in Värmland County, Sweden, are globally renowned for the quality and strength of their unbleached Kraft paper. The combination of our renewable natural resources, decades of expertise and modern manufacturing processes produce Kraft paper that is some of the strongest in the world.

Used in packaging, sacks and a variety of specialist areas,

our Kraft paper is available in a range of specifications to suit customers' needs. In Bäckhammar, our two paper machines produce 159,000 tonnes of unbleached Kraft paper every year, while Bäckhammar's pulp mill produces 230,000 tonnes of unbleached pulp a year. And two unique paper machines at our plant in Åmotfors produce around 50,000 tonnes of speciality unbleached Kraft paper a year as well.

Natural Greaseproof

As the world's leading producer of premium greaseproof paper, we use only natural production processes. We refine the fibres to create a natural greaseproof barrier, without any need for chemicals.

Our Natural Greaseproof range is the paper of choice for baking paper and baking cups, as well as renewable food packaging used for everything from luxury chocolates to top-selling cheese spreads, from frozen foods to fast foods. And Natural Greaseproof paper makes life easier

in professional and household kitchens around the world, to make cooking simpler, more economic, more hygienic and more enjoyable.

Our paper mills two machines, in Säffle, Värmland, have an annual capacity of around 33,000 tonnes of paper. Our Greåker facility, in the Norwegian county of Østfold, has two paper machines, with a total annual capacity of 44,000 tonnes of Natural Greaseproof paper. Our Québec facility, in Canada, have an annual capacity of around 13,600 tonnes.

Continuous development

We may produce the world's best paper, but we always want to make it even better. This is why we work closely with our customers to refine our products further and ensure we provide exactly the right fit for the changing needs of their businesses. And it is why we continuously looking at ways to make our paper and our processes even better.

We want to stay the best, because you deserve the best.

Wherever you are in the world, Nordic Paper is close by.

Close to nature

The forests outside our door mean the world to us. Everything we are, everything we do, stems from the nature of our Nordic home. The carefully managed forests that surround our four paper and pulp facilities in Sweden and Norway provide a renewable supply of quality pulpwood that we turn into premium paper.

We are certified by the Forest Stewardship Council® (FSC®) and the Programme for the Endorsement of Forest Certification (PEFC), ensuring we can trace back every tree to its origin, guaranteeing a sustainable supply chain.

We know these forests, and use them in a way that provides true bioeconomic equilibrium.

Even the climate plays a role: our long, cold winters and short, cool summers mean that our trees grow slowly, which creates much stronger fibres. That gives our paper a natural advantage.

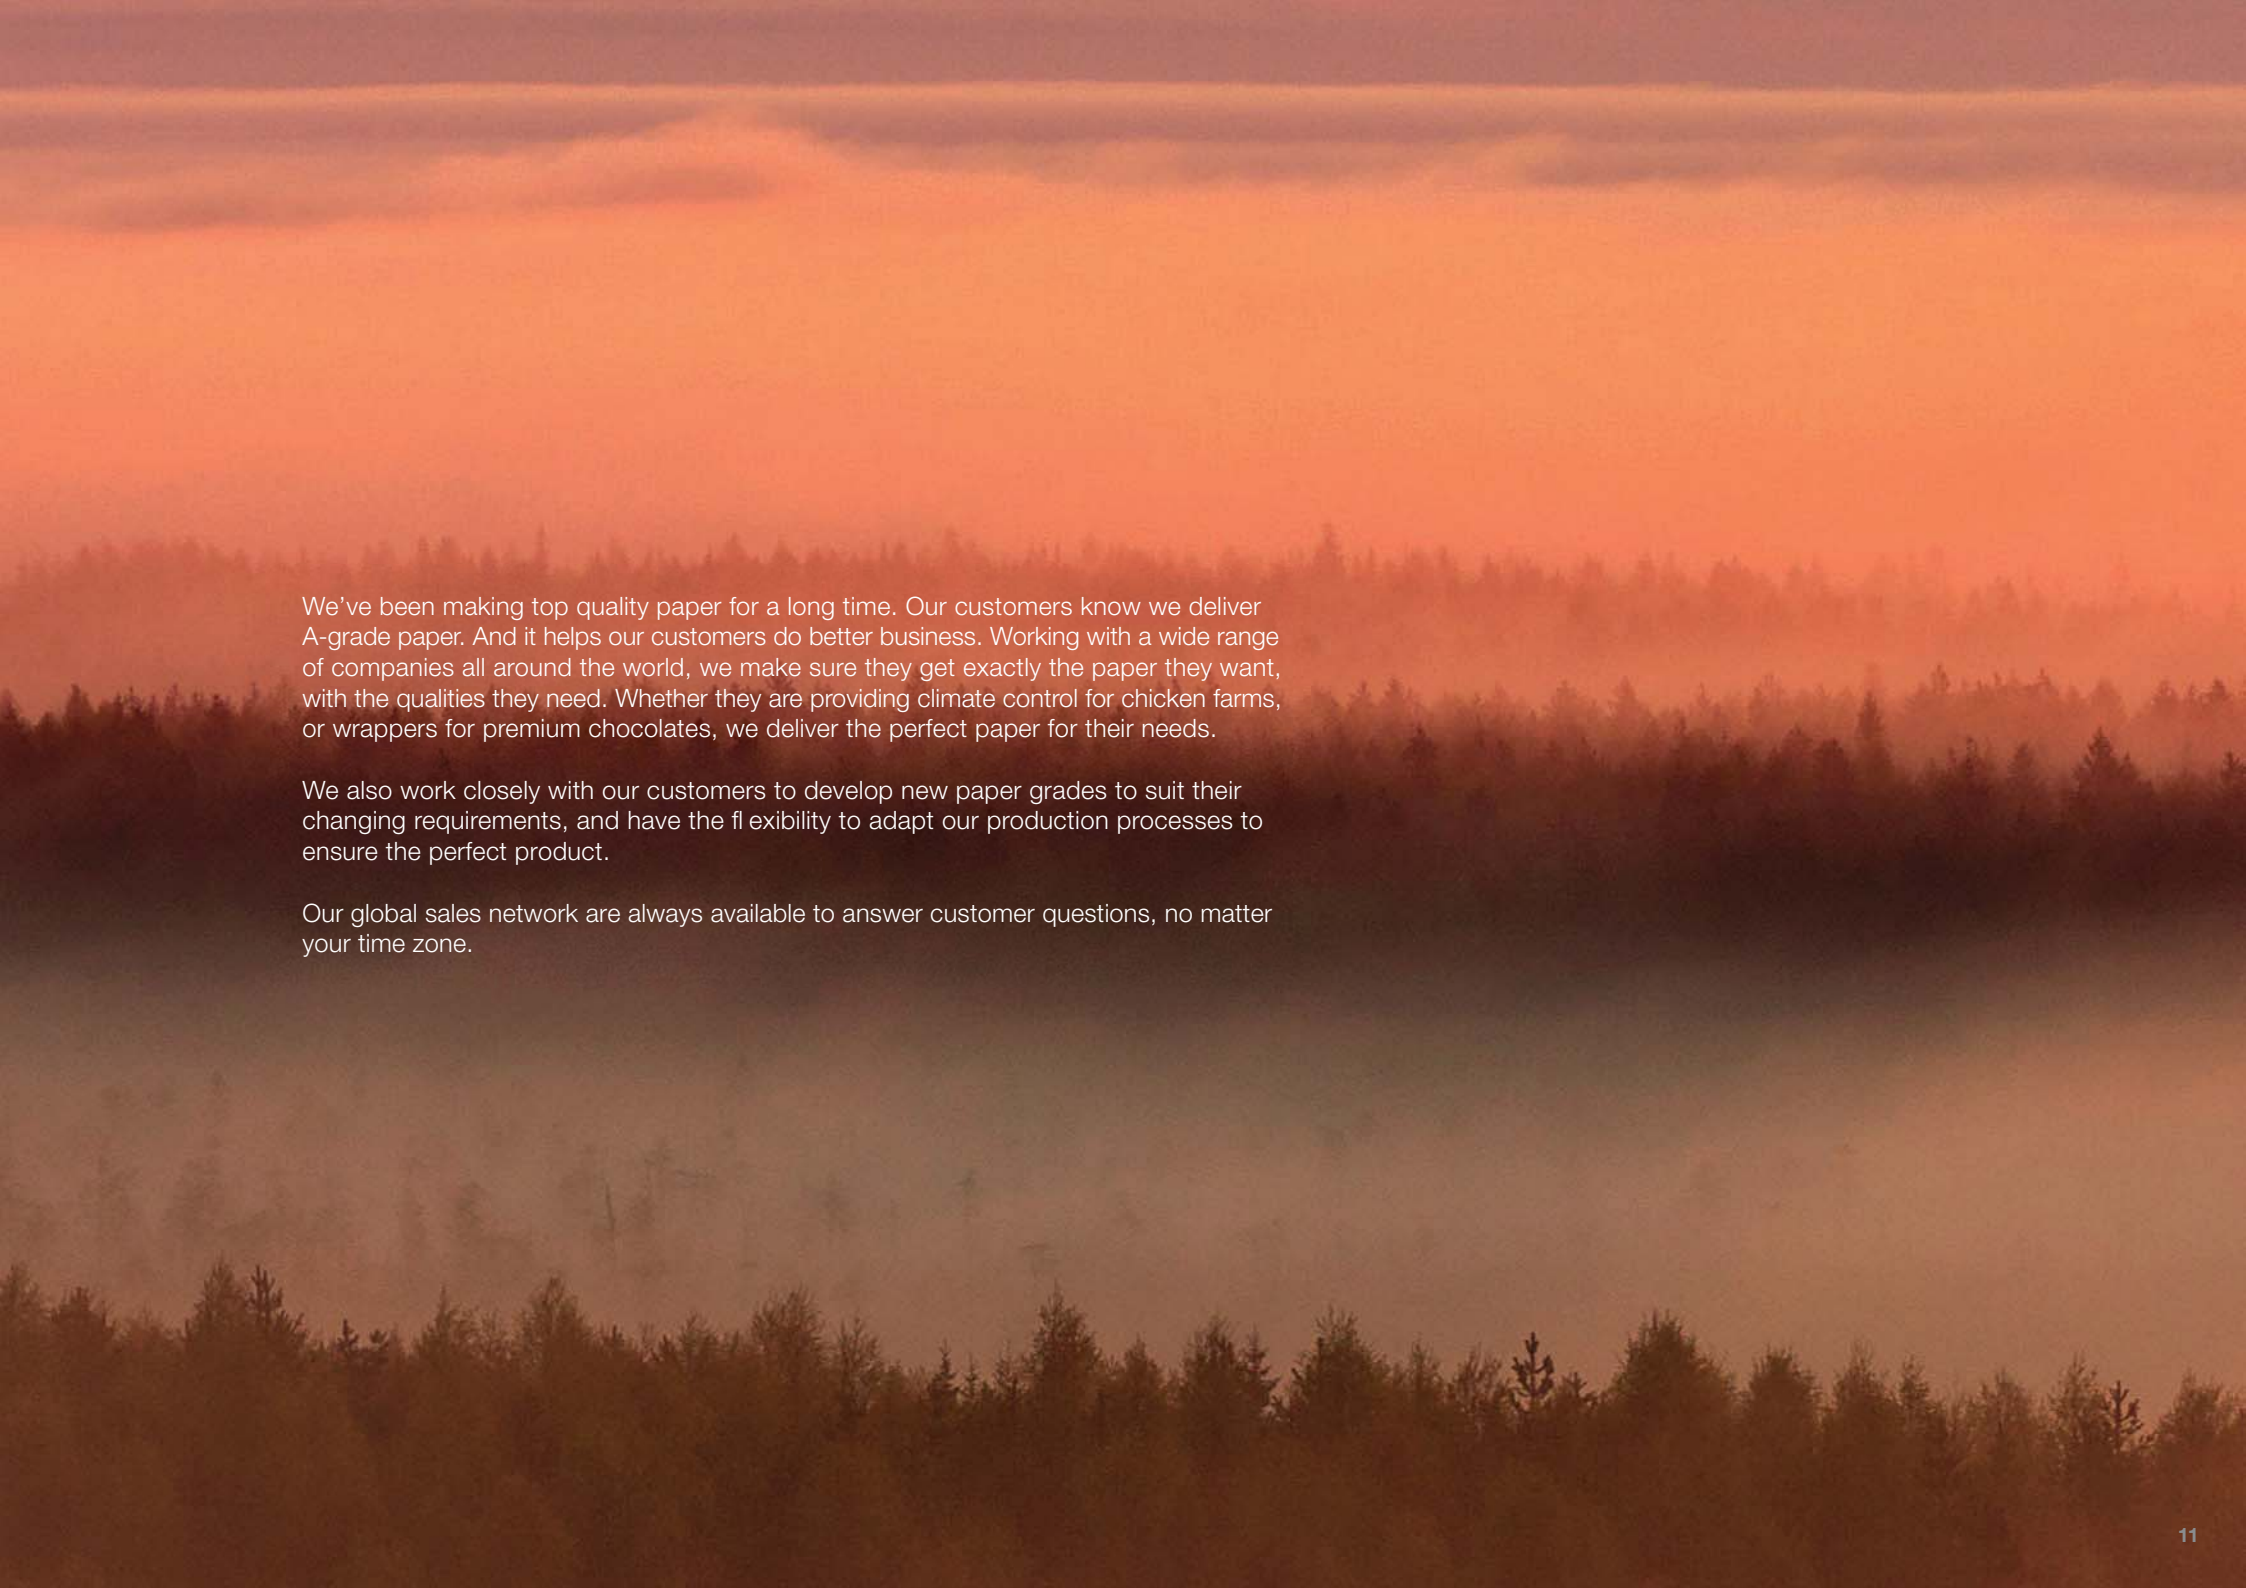

The Nordic region is known for high standards in environmental protection and sustainability. We meet – and exceed – all legal and industry requirements, in the consumption of resources, energy management and emissions.

Because we all want to care for our home.

Your premium paper partner

We've been making top quality paper for a long time. Our customers know we deliver A-grade paper. And it helps our customers do better business. Working with a wide range of companies all around the world, we make sure they get exactly the paper they want, with the qualities they need. Whether they are providing climate control for chicken farms, or wrappers for premium chocolates, we deliver the perfect paper for their needs.

We also work closely with our customers to develop new paper grades to suit their changing requirements, and have the flexibility to adapt our production processes to ensure the perfect product.

Our global sales network are always available to answer customer questions, no matter your time zone.

A photograph of a forest floor. The ground is covered in a thick layer of green moss and fallen brown leaves. Several large, moss-covered rocks are scattered across the scene. In the background, numerous tall, thin tree trunks stand vertically, creating a dense forest. The lighting is soft and natural, suggesting a quiet, wooded area.

The Nordic Paper advantage

We make top-quality paper and pulp that suits our customers' needs. As an independent manufacturer with four paper mills and two pulp mills, we know that our role is to help our customers do good business.

This common-sense approach has a lot to do with our heritage and business philosophy. Even though we are the market leader in several areas, we remain small and flexible enough to be able to adjust our production processes quickly, to deliver exactly what our customers require.

It's all part of our commitment to being a premium paper partner. Our customers know we deliver top-quality paper, and know we deliver what we promise. We understand that reliability and delivery precision are vital for our customers, so we promise you will get what you have ordered, exactly as agreed.

World-class production, top-class paper

Bäckhammar

Säffle

Åmotfors

Greåker

Québec

Our five paper mills and one pulp mill, produce two main types of premium quality paper – Natural Greaseproof and Kraft paper – both of which are used for a variety of purposes.

Kraft Paper

Our two Kraft paper mills – at Bäckhammar and Åmotfors in Värmland County, Sweden – are globally renowned for the quality and strength of their unbleached Kraft paper. As the world's most northerly production facilities for Kraft paper, they produce some of the strongest unbleached MG paper you can find ... with printability that is second to none.

Wide range of uses

Our paper is made from Scandinavian fibre, which provides a natural strength unmatched on the market. Certified internationally as ideal for food storage and packaging, our Kraft paper is used extensively on its own or as a component in sack or packaging solutions for fish, fruit and vegetables, ice cream and other foods. It is also converted into stylish yet strong carrier bags.

Our Sack Kraft paper allows the safe and convenient transportation of cement and other building materials, as well as chemicals. And with our special designations TEAQONE and T+, the world's strongest paper, our Kraft paper always provides the strength our customers need.

As well as packaging and storage, our paper is invaluable in many ways, some of which might surprise you.

With increasing focus worldwide on the responsible disposal of household waste, our

BioKraft sack paper is being used in more and more markets as a rapidly digesting solution for biogas production.

Many customers also use our Absorbent Kraft paper as a component in their own composite products, such as laminates and formed plywood. It is also an essential part of industry-specific evaporative air-conditioning systems.

Our Electrotechnical Kraft paper is a vital component in the production of electrical transformers. Our Steel Interleaving Kraft paper is the best possible solution for avoiding damage during the cold-rolling production of stainless steel.

All our customers know they can specify almost any combination of properties for the best possible product and optimal production.

Natural Greaseproof

As the world's leading producer of premium greaseproof paper, we use only natural production processes. We add no chemicals to our greaseproof paper, but rather refine the fibre to create a natural greaseproof barrier.

The best for food preparation and packaging

Certified around the world for use with food, our Natural Greaseproof paper for food preparation and packaging has been developed in conjunction with our customers to make life simpler for consumers and professionals alike.

Trustworthy partner, wherever you are

Paper-based packaging is the only type that can go straight from deep freeze to microwave oven or frying pan. Vegetables, sweets, bread, frozen and fast foods and more: our paper creates the perfect packaging by protecting against fat, light, air and moisture.

Our food packaging papers such as Candor, Super Perga and Singleproof are used for products ranging from some of the world's most famous luxury chocolates to one of the most popular cheese spreads. Our paper always ensures your products stay in top condition and are also easy to serve and consume.

And our baking and cooking papers such as Silidor and ECO Bake save time and money for households and commercial kitchens around the world, making cooking and baking simpler, cheaper and more hygienic – from decorative baking cups for English afternoon teas, to baking paper for home kitchens in Japan.

Products made with our paper help prepare and present foods perfectly, making cooking a pleasure.

On the industrial side, our Interlam paper is an essential component in the production of laminates for construction and furniture, where efficient production depends on smooth and easy laminate separation after pressing.

Everywhere you find Nordic Paper, you know you are dealing with a responsible, trustworthy company that does its best for customers, the environment, and the people and communities in which we work.

As a major employer in each of our four hometowns, we provide career opportunities for hundreds of people in a variety of jobs, along with training and education in advanced technologies and processes. And we support our local communities, through sponsorships and helping employees involved with good causes.

We are proud of our heritage as a Nordic company, working with nature to produce paper that helps our customers, and their customers, all around the world.

Nordic Paper. It's in our nature.

Swedish National Baking Team chooses premium partner

As the leading provider of premium baking and cooking paper for top restaurants, cafes and bakeries around the world, we are the natural choice as a major sponsor of the Swedish National Baking Team. The champion bakers from the Swedish national team know they can rely on our Natural Greaseproof papers to make baking simpler, cleaner and more convenient.

They have even selected their favourite paper – Champion's Choice – which we provide for all their world-class competitions.

It's in our nature
