

Press release

30 August 2022

Temporary production stop at Nordic Paper plant in Greåker will have marginal financial impact

The decided production stop at Nordic Paper plant in Greåker in Norway is planned for three days and is estimated to have marginal financial impact on the results of the company in the third quarter.

The production stop is due to the currently very high daily prices for electricity in Norway.

The plant is part of the segment Natural Greaseproof and corresponds to about half of the production capacity in the segment.
